Re: Board of Education Update
Date: April 24, 2019

I will discuss my experiences as the elected Student Representative to the Massachusetts Board of Education. I will highlight some of the exciting topics that have passed the board this year, such as the art framework, Charter schools, and the shifting of power within the Board of Education. Also, I will talk about what it means to be a young person in a role with the potential to influence important decisions.

I hope you find my presentation informative and I will be happy to answer any questions you may have.
